

# DIN 934 Hex Nuts

These hexagonal nuts conform to DIN 934 standards. They are used in mechanical and industrial applications for fastening bolts, screws, and studs.

## Product Overview

### DIN 934 Hex Nuts

These DIN 934 hex nuts are essential industrial fasteners designed for reliable connections in diverse mechanical and construction applications. Engineered to meet international standards including DIN, ISO, ANSI, ASME, BS, AS, and JIS, they offer broad compatibility and consistent performance. Available in multiple material grades and surface finishes, these nuts are suitable for environments ranging from general assembly to heavy-duty industrial use.

## Technical Specifications

### Surface Finish

Plain • Black Oxidized • Zinc Plated • Hot Dip Galvanized • Dacromet

### Strength Grades

- 8.8
- 10.9
- 12.9
- gr5
- gr8

### Material

Carbon Steel, Alloy Steel

## Standards & Compatibility

### Standards Compliance

DIN, ISO, ANSI, ASME, BS, AS, JIS

## Logistics & Supply

### Monthly Supply Ability

**800 tons**

Supply Capacity

### Delivery Lead Time

7-30 days

### Packaging Standard

25kg per carton, 36 cartons per pallet

## Applications

### Typical Applications

- Building Construction
- Instrumentation
- Automotive
- Furniture Assembly
