Product Overview

Professional Modular Power Solution

This DIN rail mountable modular power socket is engineered for reliable electrical distribution in industrial and commercial environments. Constructed from high-strength, heat-resistant PC material, it ensures safe and stable operation through the use of premium internal components. Its modular design offers flexible configuration options, making it an ideal choice for DIN rail-based electrical cabinets and control panels.

Electrical Ratings

Certifications

CE

Rated Current	16 A
Rated Voltage	250 V

Physical & Design

Key Features

- Indicator light
- Grounding terminal included
- Modular design for flexible configuration
- Heat resistant shell

Mounting Style	DIN Rail
Housing Material	High-strength PC (Polycarbonate)

Configuration

Supported Socket Styles	German Schuko, UK-style
