Product Overview

Maintenance-Free Automotive Battery

This DIN45 automotive battery is designed to provide reliable starting power for a wide range of vehicles, including cars, buses, and trucks. Engineered with a maintenance-free design, it eliminates the need for regular water refilling while ensuring consistent performance. The unit features robust construction for high temperature resistance and vibration durability, making it a dependable choice for demanding automotive environments.

Technical Specifications

Voltage	12 V
Capacity (20hr)	45 AH
Cold Cranking Amps (-18°C)	360 A
Reserve Capacity	79 min
Dimensions (L*W*H)	242 * 175 * 190 mm
Compliance Standards	DIN Standard

Construction & Materials

Robust, sealed construction designed to prevent acid leakage and enhance vibration resistance.

Material Composition

Component	Material
Separator	PE
Container	Flame Retardant PP

Features

Key Advantages

- High temperature resistant
- Great vibration resistance
- Low self-discharge rate
- Maintenance-free design

Logistics & Warranty

Compatible Vehicles

Cars • Buses • Trucks

Warranty

1 year
