

# Dishwasher and Disinfector

This is a combined dishwasher and disinfector. The apparatus washes dishes and disinfects them.

## Product Overview

### Professional Weed Control Solution

This specialized matting is designed to effectively control weed growth among plants and flowers while ensuring optimal environment conditions. The material allows air and water to flow freely to plant roots, promoting healthy growth. Engineered for durability, it is treated for an extended lifespan and can be easily customized by cutting into the fabric.

## Technical Specifications

### Maintenance

- Clear of all moults
- Spray the area as needed
- Cut to fit specific installation areas

### Mat Dimensions

12 meters

## Usage & Application

### Primary Application

Weed Control, Plant Root Protection, Landscaping
