

# Dishwasher Flexible Braided Connector Hose

This flexible braided hose connects dishwashers to water supplies. Its braided exterior provides durability and resistance to kinks and bursts.

## ADDITIONAL IMAGES

## Product Overview

### Professional Dishwasher Connector Hose

This high-quality flexible braided hose is engineered for reliable water supply connections in both residential and commercial dishwasher installations. Constructed with a durable SS304 stainless steel braided exterior and a robust PVC inner tube, it offers excellent resistance to kinks and bursts. The assembly features precision-machined brass nuts and inserts, ensuring a secure, leak-proof connection to standard plumbing fixtures.
