

Disposable Bouffant Hair Net Caps

Disposable bouffant hair net caps are designed for hygienic environments. These lightweight, breathable caps offer full hair coverage and feature an elastic band for a secure fit.

Product Overview

Professional Hygienic Headwear

These disposable bouffant hair net caps are engineered for strict hygiene compliance in cleanrooms, food processing facilities, and medical environments. Constructed from premium spunbond polypropylene, they offer a lightweight and breathable barrier that ensures full hair coverage throughout the work shift. The integrated elastic band guarantees a secure, one-size-fits-most fit that remains comfortable during extended use.
