

Disposable KN95 Face Mask

This disposable KN95 face mask filters at least 95% of airborne particles, providing respiratory protection. It features a multi-layer construction and a comfortable fit with an adjustable nose clip and ear loops.

Overview

High-Efficiency Respiratory Protection

This disposable KN95 face mask is engineered to filter out at least 95% of airborne particles, offering reliable respiratory protection against dust, allergens, and certain pathogens. Designed for single-use, it features a multi-layer construction that ensures enhanced filtration efficiency while maintaining breathability. The mask is equipped with an adjustable nose clip and elastic ear loops to provide a secure and comfortable fit for various professional and personal environments.
