

Disposable Polyethylene Gloves

These disposable polyethylene gloves provide a protective barrier for light-duty tasks. The clear, lightweight polyethylene film ensures a comfortable fit and good tactile sensitivity.

Product Overview

Disposable Polyethylene Gloves

These disposable polyethylene (PE) gloves provide a reliable barrier of protection for various light-duty tasks. Crafted from clear, lightweight film, they offer excellent tactile sensitivity and a comfortable, loose fit for easy donning and doffing. Designed for hygiene-critical environments, they are an ideal choice for food handling, cleaning, and general sanitation needs.

Key Features

Usability

- Easy donning and doffing
- Tactile sensitivity
- Single-use design
- Lightweight construction

Material Composition

Polyethylene (PE), Latex-Free, Powder-Free
