Product Overview

Respiratory Protection Overview

This disposable polypropylene dust mask is designed to provide effective respiratory protection against non-toxic dusts, pollen, mold, and common airborne irritants. Constructed from high-quality, non-woven polypropylene, it offers a lightweight and comfortable fit suitable for various industrial and commercial applications such as construction, woodworking, and general maintenance. The mask features an adjustable nose clip and elastic ear loops, ensuring a secure and reliable seal for the user.

Technical Specifications

Available Material GSM

- 120
- 150
- 160
- 180
- 200

Color Options

White, Blue, Green, Red

Performance & Safety

Filtration Metrics

0.3 microns

Particle Filtration Threshold

Safety Limitations

Not for hazardous gases • Not for vapors • Not for oxygen deficient environments

Design Features

Design Highlights

- Non-woven polypropylene construction
- Adjustable nose clip
- Elastic ear loops
- Lightweight design
