Product Overview

Daily Protective Face Mask

This disposable daily-use mask is designed to provide a reliable barrier against airborne particles and droplets. Featuring a robust three-layer construction, it combines non-woven fabrics with a melt-blown filter layer for enhanced filtration efficiency. With elastic ear loops and an adjustable nose bar, it ensures a secure and comfortable fit for various environments.

Construction & Materials

Layer Composition

- Outer Layer: SS dark non-woven fabric
- Filter Layer: White melt-blown non-woven fabric
- Inner Layer: SS light or white non-woven fabric

Key Components

Nose bar, Elastic ear belt
