

DN25 Brass Ball Valve with Red Lever

This ball valve is designed for fluid control in various industrial applications. It features a robust brass body for durability and corrosion resistance.

Product Overview

Industrial Fluid Control

This robust brass ball valve is engineered for reliable fluid control in diverse industrial environments. Featuring a durable brass body, it offers excellent corrosion resistance and long-term performance. The intuitive red lever handle ensures easy manual operation and provides clear visual confirmation of the valve's open or closed status.

Technical Specifications

Handle Color

Red

Nominal Diameter (DN)

25 mm

Pressure Rating (PN)

25 bar

Body Material

Brass

Operation

Manual Lever

Applications

Key Features

- Corrosion resistant brass body
- Visual open/closed indication
- Tight seal design
- Suitable for demanding environments

Compatible Media

Water, Oil, Gas
