

Dome Security Camera for Indoor/Outdoor Surveillance

This high-resolution dome security camera features a robust housing suitable for both indoor and outdoor surveillance. It is equipped with advanced imaging technology to ensure clear video capture in diverse lighting conditions.

Overview

Professional Dome Security Solution

This high-resolution dome security camera is engineered for versatile surveillance in both indoor and outdoor environments. Featuring a robust, weather-resistant housing, it delivers reliable performance and clear video capture across diverse lighting conditions. Designed for seamless integration, it offers an efficient solution for enhancing security monitoring systems.

Technical Specifications

Design Features

Robust Housing • Easy Installation • High-Resolution

Surveillance Type	Dome Camera
Application Environment	Indoor, Outdoor

System Integration

Integration Capabilities

- Compatible with existing security systems
- Advanced imaging technology
- Versatile lighting adaptation
