

Dome Security Camera with Infrared Night Vision

This high-resolution dome security camera is suitable for indoor or outdoor surveillance. It features infrared LEDs for night vision, a wide-angle lens, and a durable weatherproof housing.

Product Overview

Advanced Surveillance Solution

The ZH-500 series dome security camera utilizes infrared wisdom bright technology to ensure high-quality monitoring in various lighting conditions. Encased in a durable, weatherproof housing, this unit is engineered for both indoor and outdoor surveillance applications. It delivers reliable and clear video footage, making it an ideal choice for securing homes, professional offices, and commercial retail environments.
