

Dome Security Camera with IR LEDs

This dome security camera is designed for indoor and outdoor surveillance. It features infrared LEDs for night vision and provides high-resolution video capture.

Product Overview

Professional Dome Security Camera

This high-definition dome security camera is engineered for reliable surveillance in both indoor and outdoor environments. Featuring a robust IP66 waterproof rating and advanced H.265 compression, it delivers clear 1080P video while optimizing storage efficiency. With integrated infrared LEDs providing up to 15 meters of night vision, this camera ensures consistent monitoring performance around the clock.

Technical Specifications

Resolution	2MP 1080P
Lens	2.8mm
Night Vision Range	15 m
Video Compression	H.265

Hardware & Build

Ingress Protection
IP66 Waterproof

Internal Components

- SSC325
- GC2053

Power Input | 12V 1A (Adapter included)

Optional Features

Available Upgrades | PoE, Audio
