

Door Lock and Deadbolt Installation Kit

This 2-piece door lock and deadbolt installation kit is designed for metal and wood doors. It simplifies the installation of door locks and deadbolts with an easy 3-step process.

Product Overview

Professional Installation Kit

This 2-piece door lock and deadbolt installation kit is designed to simplify the installation process for both metal and wood doors. Featuring high-quality bi-metal hole saws and a durable composite jig, it ensures precise cuts and long-lasting performance. With an adjustable backset compatible with standard door thicknesses, this kit is an essential tool for both interior and exterior door applications.
