

Double Bowl Stainless Steel Kitchen Sink

This stainless steel kitchen sink features a double bowl design for efficient use. It offers smooth surfaces for easy cleaning and a corrosion-resistant finish for lasting durability.

Overview

Professional Grade Stainless Steel Sink

This double bowl stainless steel kitchen sink is engineered for high-volume kitchen environments, offering superior durability and functional versatility. The equal-sized bowls provide an optimized workspace for multitasking, while the corrosion-resistant finish ensures long-term hygiene and aesthetic appeal. Designed with smooth, seamless surfaces, it facilitates easy cleaning and maintenance for busy professional or modern residential kitchens.

Technical Specifications

Model Identifier	DB2601-L
