

Double Burner Glass Top Gas Stove

This double burner gas stove features a sleek glass top and stainless steel body. Equipped with two high-efficiency burners, it provides rapid and even heating with adjustable control knobs and a flame failure safety device.

Overview

Professional Double Burner Gas Stove

This double burner gas stove combines a sleek, modern glass top design with a durable stainless steel body, making it a reliable addition to any commercial or modern kitchen. Equipped with two high-efficiency burners, it ensures rapid and even heating for consistent cooking results. Designed for versatility, the unit supports both LPG and natural gas, while integrated safety features like the flame failure device (FFD) provide essential peace of mind.
