

Double Drawer Dishwasher and Disinfector

This double-drawer dishwasher and disinfector is designed for household use. It features two independent drawers for washing and disinfecting dishes, offering a convenient solution for cleaning and sanitizing dishware.

Product Overview

Dual-Drawer Hygiene Solution

This double-drawer dishwasher and disinfective apparatus offers a sophisticated solution for high-level kitchen hygiene. Designed with two independent drawers, it allows for simultaneous or separate washing and disinfection cycles, maximizing operational efficiency. The robust stainless steel construction ensures long-term durability, while the intuitive top-mounted control panel provides seamless access to specialized sanitization programs.
