

Double Drawer Dishwasher and Disinfector

This double-drawer dishwasher and disinfector is designed for household use. The appliance features a stainless steel finish and multiple wash programs selectable via front-panel buttons.

Overview

Dual-Function Dishwashing and Disinfection

This double-drawer dishwasher and disinfective apparatus is engineered for modern kitchen environments, combining efficient cleaning with essential sterilization capabilities. The stainless steel finish offers durability and a seamless aesthetic, while the dual-drawer configuration allows for flexible loading and simultaneous or independent operation. Designed to streamline kitchen hygiene, this appliance provides a professional-grade solution for maintaining clean and sanitized tableware.
