

Double-Ended PH2 Screwdriver Bit

This double-ended screwdriver bit has a PH2 (Phillips #2) tip on both ends. It is made from S2 steel, ensuring high strength and durability for driving screws with Phillips head recesses in power tools and hand drivers.

Product Overview

Professional Grade Durability

This double-ended PH2 screwdriver bit is engineered for high-performance fastening applications. Crafted from premium S2 steel, the bit ensures exceptional durability and resistance to wear during intensive use. The versatile design features a Phillips #2 tip on both ends, making it a reliable choice for cordless drills, air screwdrivers, and air wrenches.
