Product Overview

Professional Directional Lighting

This double-faced directional LED light is engineered for high-visibility signaling and illumination in demanding environments. Featuring a powerful 7W LED source with an impressive 100,000-hour lifespan, it ensures reliable performance for long-term use. Its robust design, including a stable base and ergonomic handle, makes it ideal for construction sites, industrial workshops, and emergency response scenarios.

Performance Metrics

Light Source Power

7 W

Power Output

100000 hours

Lifespan

Discharge Time

- 12h (working light)
- 30h (strobe light)

Visual Distance

1500 m

Electrical Specifications

Rated Voltage

3.7 V

Rated Capacity

1.7 Ah

Charging Time

6 h

Physical Dimensions

Size and Weight

Dimension	Value
Size	1100*276mm
Weight	650g
