

Double Girder Bridge Crane 5-100T

This double girder bridge crane is a heavy-duty lifting solution designed for industrial use. It has a lifting capacity ranging from 5 to 100 tons and enhanced stability from its double-girder construction.

Overview

Heavy-Duty Lifting Solution

The LH Model Double-girder Bridge Crane is a heavy-duty lifting solution designed for industrial applications. With a lifting capacity ranging from 5 to 100 tons, this crane is suitable for handling a wide variety of materials and loads. Its double-girder construction provides enhanced stability and load distribution, making it ideal for demanding lifting tasks.

Performance Metrics

Lifting Capacity Range

5 T

Minimum Capacity

100 T

Maximum Capacity

Technical Features

Key Components

- Robust trolley mechanism
- Advanced hoisting system
- Integrated safety features

Construction Type

Double-girder bridge

Design Highlights

Design Advantages

Enhanced Stability, Optimal Load Distribution, Precision Movement, Industrial Durability
