

# Double Head LED Light Push Button Switch

This double-head LED light push button switch provides on/off functionality. The metal switch is designed for use in controlling circuits with AC voltage up to 660V.

## ADDITIONAL IMAGES

## Overview

Suitable for diverse industrial environments including distribution cabinets and power stations.

### Industrial Double Head Push Button

This double-head LED push button switch is engineered for demanding industrial control environments. Constructed with a robust zinc alloy body and high-grade anti-flame plastic, it ensures durability and operational safety. Featuring integrated LED indication, it provides clear status monitoring for machinery control, distribution cabinets, and power stations.

## Electrical Specifications

Rated Insulation Voltage (AC)	600 V
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d25h©

## Performance Metrics

### Mechanical Life

**1000000 cycles**  
Pushbutton

**500000 cycles**  
Selector Switch

### Electrical Life

**5000000 cycles**  
Pushbutton

**250000 cycles**  
Selector Switch

## Compliance & Standards

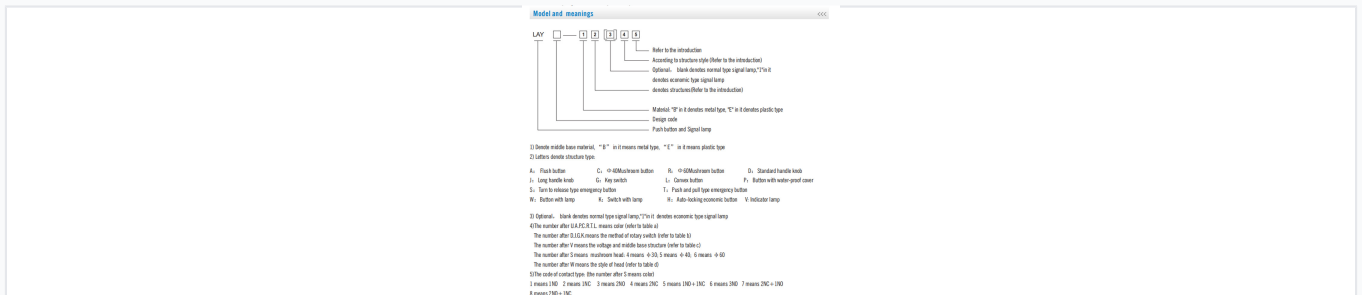

### Certifications

CE • ISO 9001 • RoHS • UL

### Standards Compliance

- GB/T14048.1
- IEC60947-5-1

## Technical Details

Technical diagram explaining the model coding and structural configuration for the LAY series switches.

## Technical Parameters

Parameter	Value
Withstand Voltage	AC 2.5KV/min
Voltage Wave	±20%
Lamp Brightness	60cd/m <sup>2</sup>
Continuous Working Life	100,000h
