Product Overview

Efficiency Meets Design

This double-layer insulated electric kettle is designed for both safety and performance in a modern kitchen environment. Featuring a cool-touch exterior and a durable stainless steel inner lid, it ensures efficient boiling while maintaining external temperature safety. With a 1.8L capacity and rapid-boil technology, it is an ideal solution for quick and reliable water heating.

Technical Specifications

Capacity	1.8 L
Item Number	XH-XDLDT09
Base Rotation	360 degrees

Features & Safety

Design Highlights

- Double-layer insulated body
- Cool touch plastic shell and handle
- Stainless steel inner lid
- Separated body and base

Performance

1.8 L
Capacity

Safety Features

Automatic Power Off, Dry-burn Protection, Cool Touch Exterior
