Overview

Professional Double Needle Lockstitch Series

This high-speed double needle lockstitch sewing machine is engineered for precision and efficiency in garment manufacturing environments. The GC20842-5 and GC20845-5 series deliver reliable, consistent stitch quality across various textile applications. Its robust construction ensures long-term durability and increased productivity on the production floor.

Technical Specifications

Available Series	GC20842-5, GC20845-5
Application	Garment Manufacturing
Stitch Type	Double Needle Lockstitch
