

Double Offset Ring Spanner Set (6-22mm)

This set includes eight double offset ring spanners ranging in size from 6mm to 22mm. These tools are designed for auto repair and maintenance, allowing access to fasteners in tight or obstructed areas.

Product Overview

Professional Double Offset Ring Spanner Set

This comprehensive set of eight double offset ring spanners is engineered for precision and accessibility in demanding automotive maintenance environments. The offset design provides critical clearance for fasteners located in recessed or obstructed areas, ensuring optimal leverage and torque application. Designed for durability and organization, this set includes a versatile range of sizes from 6mm to 22mm, all housed in a convenient roll-up pouch for efficient storage.
