

Double Offset Ring Spanner Set (6-22mm)

Set of 8 double offset ring spanners ranging from 6mm to 22mm. Designed for auto repair and maintenance, these tools provide access to fasteners in tight spaces.

Product Overview

Professional Double Offset Ring Spanner Set

This 8-piece double offset ring spanner set is engineered for precision and accessibility in demanding automotive maintenance environments. The double offset design provides critical clearance and leverage when working with fasteners in confined or recessed spaces. Crafted for durability, this set covers a comprehensive range of sizes from 6mm to 22mm, making it an essential addition to any professional mechanic's toolkit.
