

Double-Shaft Blade Mixer

This double-shaft blade mixer is designed for efficient mixing of materials in industrial applications. It features a robust construction and strategically positioned blades to ensure thorough and uniform mixing.

Product Overview

Industrial Double-Shaft Blade Mixer

The SSHJ Series Double-shaft Blade Mixer is a high-efficiency industrial mixing solution designed for superior uniformity. Featuring a robust double-shaft configuration and strategically positioned blades, it ensures thorough blending of powders and granules. Engineered for stability and reliability, it is an ideal choice for demanding industrial environments requiring consistent performance.

Technical Specifications

Key Features

- Robust double-shaft construction
- Optimized blade positioning
- Sturdy frame mounting
- Integrated safety systems

Efficiency

High Efficiency • Uniform Mixing

Mixing Mechanism

Double-shaft blade mixing

Suitable Materials

Powders, Granules, Dry materials
