Product Overview

Professional Hedge Maintenance

The HT220B is a powerful and efficient hedge trimmer engineered for both residential and commercial landscaping tasks. Featuring a robust 22cc engine and a durable, double-sided blade, it delivers clean, precise cuts even through thicker branches. Its ergonomic design and lightweight construction minimize operator fatigue, making it an ideal choice for extended trimming and shaping sessions.

Technical Specifications

Engine Displacement	22 cc
Blade Configuration	Double-sided

Key Features

Design Highlights

- Ergonomic handle for comfortable operation
- Lightweight construction to reduce fatigue
- Robust engine for consistent power
- Durable blade for precise shaping

Recommended Use	Residential, Commercial, Hedge Trimming, Shrub Shaping
