

Double-Sided Chromed Frame Emergency Exit Light

This is a double-sided emergency exit light with a chromed frame. It provides clear visual guidance during power outages or emergencies.

Product Overview

Professional Emergency Exit Lighting

This double-sided emergency exit light features a premium chromed frame designed for high visibility and durability in commercial environments. It provides clear directional guidance with bilingual 'EXIT' and '出口' signage accompanied by universal directional arrows. Engineered for security and safety, it ensures reliable visual navigation for occupants during power outages or emergency situations.
