

Double-Sided Fuel Dispensing Unit with Single Nozzle

This is a double-sided fuel dispensing unit. Each side has a single nozzle and a digital display for price and volume.

Product Overview

Professional Fuel Dispensing Solution

This double-sided fuel dispensing unit is engineered for efficient commercial operations at gas stations and fueling depots. Featuring a robust design with a single nozzle on each side, it provides reliable performance and clear digital readouts for price and volume. The unit is built to withstand demanding environments while maintaining operational accuracy.
