Product Overview

Premium Double-Sided Microfiber Towel

This ultra-plush, double-sided microfiber towel is engineered for superior performance in both automotive detailing and household cleaning. Featuring a high-density, deep-pile construction, it absorbs twice as much liquid as traditional terry towels, ensuring a streak-free, mirror-like finish on paint, glass, and chrome. Designed for versatility, this lint-free cloth is the ideal solution for removing polishes, waxes, and spray detailers with minimal effort.
