

Double Strand Sprocket 120-2B, 1.5 inch Pitch, 13 Tooth

Double strand sprocket 120-2B has a 1.5" pitch and 13 teeth. It is suitable for use with corresponding 120-2 chains in various machinery and equipment.

Overview

Precision Engineered Power Transmission

This 120-2B double strand sprocket is engineered for robust power transmission in demanding industrial environments. Featuring a 1.5-inch pitch and 13 teeth, it is designed for high-performance operation and durability. It is fully compatible with corresponding 120-2 roller chains, making it a reliable component for various machinery and heavy-duty equipment applications.

Technical Specifications

Sprocket Type	Double Strand (120-2B)
Pitch	1.5 inch
Number of Teeth	13
Compatible Chain	120-2 Roller Chain
Key Features	Double Strand, Industrial Grade, Precision Engineered, High Durability
