

Double Wheel Soil Tiller

This double-wheel soil tiller is designed for efficient soil preparation in agricultural applications. It features sturdy wheels for enhanced traction and adjustable tilling depth.

Product Overview

Efficient Soil Preparation

This robust double-wheel soil tillage machine is engineered for high-performance soil preparation in various agricultural settings. Featuring a powerful engine and adjustable tilling depth, it offers versatile soil management capabilities tailored for small to medium-sized farms and gardens. The design incorporates sturdy wheels to ensure superior traction and stability across diverse terrain types.

Technical Specifications

Machine Type	Double Wheel Soil Tiller
Ideal Use Cases	Small Farms, Medium Farms, Gardens

Performance Features

Traction System Enhanced Traction • Sturdy Wheels • High Stability	
Tilling Control	Yes
Adjustable Tilling Depth	Yes, adjustable for versatile soil management
