

Double Wheel Steel Hose Reel Cart

This hose reel cart ensures watering projects are easily managed. Its double-wheel design provides stability and effortless hose winding and unwinding.

Product Overview

Professional Hose Management Solution

This double-wheel steel hose reel cart is engineered for high-capacity hose storage and easy mobility in demanding environments. Featuring a robust 13-gauge steel frame with a protective powder-coat finish, it is designed to resist environmental wear while providing lasting performance. The low center of gravity ensures stability during use, making it an ideal choice for professional landscaping, construction, and industrial applications.
