

Dovetail Milling Cutter for Woodworking

This dovetail milling cutter is designed for creating dovetail joints in woodworking. It features a cylindrical shank for secure mounting in a router or milling machine, ensuring strong and accurate joint construction.

Product Overview

Precision Dovetail Milling Cutter

This professional-grade dovetail milling cutter is engineered specifically for creating robust and precise dovetail joints in various woodworking applications. Designed with a standard cylindrical shank, it ensures secure and stable mounting in routers or milling machines. Its optimized geometry delivers clean, accurate cuts, making it an essential tool for high-quality joinery.

Technical Specifications

Cutter Geometry

1 deg

Dovetail Angle (a)

1 mm

Cutter Diameter (D)

1 mm

Cutting Height (H)

Shank Type

Cylindrical

Application

Primary Applications

- Dovetail joint construction
- Furniture making
- Cabinetry
- Precision joinery

Suitable Materials

Hardwood, Softwood, Wood Composites
