Product Overview

High-Performance Dozer End Bits

These professional-grade dozer end bits are engineered for demanding earthmoving and construction applications. Designed for optimal wear resistance and durability, they ensure consistent performance in harsh operating environments. Available in multiple material compositions and precise dimensional configurations, these parts are built to provide a perfect fit for your heavy machinery.

Technical Specifications

Compatible Part Numbers

- 1757122272
- 1757122282

Dimensional Specifications

Length (mm)	Width (mm)	Thickness (mm)	Bolt Pattern
540	254	40	7*7/8"
540	254	35	7*7/8"
540	254	30	7*7/8"

Available Materials

16Mn, 30MnB
