

Drill Bit and Cutter Set

This assortment of drill bits and cutting tools is designed for woodworking and metalworking. It includes various drill bit types, hole saws, and milling cutters suitable for creating precise holes and shaping materials.

Product Overview

Professional Drill Bit and Cutter Set

This comprehensive set is designed for precision processing and drilling applications across woodworking and metalworking projects. Featuring a robust construction of High Carbon Steel, High-Speed Steel (HSS), and Tungsten Carbide Tipped (TCT) materials, these tools ensure durability and high performance. The assortment includes various drill bits, hole saws, and milling cutters compatible with standard drills and milling machines.

Material Specifications

Material Composition	High Carbon Steel, HSS (High-Speed Steel), TCT (Tungsten Carbide Tipped)
----------------------	--

Technical Dimensions

Common Size Specifications

Diameter (D)	Length Options
3mm	57mm / 70mm
6mm	57mm / 70mm
8mm	57mm / 70mm
10mm	57mm / 70mm
12mm	57mm / 70mm
15mm	57mm / 70mm

Application

Primary Usage

- Precision processing
- Drilling holes
- Woodworking
- Metalworking
- Shaping materials

Equipment Compatibility

Compatible Machinery

Standard Drills • Milling Machines

Tool Variety

Included Tool Types

- Drill bits
- Hole saws
- Milling cutters
