

Drill Bit Set for Wood, Metal, and Concrete

This 16-piece drill bit set is designed for drilling into metal, wood, and concrete. The set includes HSS metal drill bits, concrete drill bits with TCT tips, and wood drill bits made of hardened tool steel.

Overview

Versatile 16-Piece Drilling Solution

This comprehensive 16-piece drill bit set is engineered for versatility across multiple material types, including wood, metal, and concrete. Each bit is crafted from high-quality materials to ensure durability and precision during drilling operations. Designed for professional and workshop use, the set comes organized in a protective plastic box with a double blister pack for secure storage.
