

Drill Bit Set for Wood, Metal, and Plastic

This drill bit set is designed for drilling into wood, metal, and plastic. It includes twist drill bits, brad point bits, and countersink bits to suit various applications.

Overview

Versatile Drilling Solutions

This comprehensive drill bit set is designed for high-precision applications across wood, metal, and plastic materials. Featuring a variety of specialized bits including twist drills, brad points, and countersinks, it provides a complete solution for industrial and DIY projects. The high-speed steel construction ensures long-lasting durability and consistent performance in demanding environments.

Technical Specifications

Surface Finishes

TiN • Bright • Black Oxide • Rainbow Color • Bronze Oxide

Point Angles

- 118°
- 135° Split Point

Available Materials

HSS, HSS with Cobalt, Carbide Inlay, Alloy Inlay

Product Range

Drill Bit Types

Series	Type	Material
2000	Straight Shank Twist Drill	HSS
2001	Industrial Spade Drill	Carbide Inlay
2006	Twist Drill	HSS Cobalt
2009	Left Hand Drill	Bright TiN

Application

Specialized Bit Functions

- Brad point bits for accurate starting and clean edges
- Countersink bits for flush screw installation
- Twist drills for general purpose precision

Compatible Materials

Wood, Metal, Plastic

Sizing

Measurement Standards

Inch, Wire, Letter, Metric
