Product Overview

American Style Drill Press Vise

This American-style drill press vise is a robust and versatile tool engineered for secure workpiece clamping during drilling, tapping, and milling operations. Constructed from high-strength cast iron with a 30,000 PSI rating, it ensures durability and stability for both professional and DIY machining tasks. Featuring a precision-machined screw mechanism and serrated jaw plates, this vise provides reliable grip and consistent results across a variety of applications.

Technical Specifications

Available Sizes

- 3 inch
- 4 inch
- 5 inch
- 6 inch

Material Tensile Strength

30000 PSI

Construction Material

High-strength cast iron

Clamping Features

Serrated jaw plates, Acme-threaded screw, Hardened steel jaws

Mounting & Compatibility

Primary Applications

Drilling • Tapping • Milling • Light-duty machining

Mounting Configuration

Slotted base for drill press tables and workbenches
