

Drive Shaft CV Axle MR276870

This drive shaft CV axle guarantees high precision. It ensures reliable power transfer and smooth operation.

Product Overview

High-Performance CV Axle for Mitsubishi Vehicles

This outer CV joint is precision-engineered to ensure reliable power transfer and smooth operation for Mitsubishi drive shafts. Built with durable materials, it is designed for an extended service life and meets or exceeds OEM specifications for a direct fit. It is an ideal solution for both replacement and performance upgrades in demanding automotive applications.

Technical Specifications

OE Number

MR276870

Component Type

Outer CV Joint

Compatibility

Compatible Models

- Mitsubishi L200 4x4
- Mitsubishi Pajero

Placement on Vehicle

Drive Shaft Rear

Quality & Performance

Key Benefits

Reliable Power Transfer, Smooth Operation, Durable Construction, OEM Fitment

Engineering Standard

Precision-engineered to meet or exceed OEM specifications
