

# Drop Forged Claw Hammer with Bi-Material Handle

This claw hammer features a drop-forged steel head and a bi-material handle. The handle provides a comfortable and secure grip, and a lanyard hole is present for easy storage.

## Product Overview

### Professional Grade Claw Hammer

This professional-grade claw hammer features a high-durability drop-forged steel head, engineered for maximum impact force and longevity. The ergonomic bi-material handle offers a secure, comfortable grip that reduces hand fatigue during extended use. Designed with utility in mind, it includes a versatile claw for effective nail removal and an integrated lanyard hole for convenient storage and safety when working at heights.
