Dry Graphite Spray Lubricant

This specialized lubricant reduces friction and wear in various applications. It provides a dry, non-oily coating of graphite that effectively minimizes sticking and ensures smooth operation.

Product Overview

Professional Grade Dry Lubricant

This specialized dry graphite lubricant is engineered to provide a non-oily coating that effectively minimizes friction and wear across various mechanical components. The formula is specifically designed to prevent sticking while maintaining smooth operation in environments where traditional oils are impractical. Ideal for precision maintenance, this solution ensures reliable performance for delicate mechanisms.

Technical Specifications

Net Volume	150 ml
Lubricant Type	Dry Graphite
Model Identifier	MA1200

Key Benefits

Performance Features	Reduces Friction, Prevents Sticking, Non-Oily Coating, Wear Resistant

Applications

Recommended Use Cases

- Locks
- Hinges
- Mechanical assemblies

Rooms 05–15, 13A/F South Tower, World Finance Centre, Harbour City, 17 Canton Rd, Tsim Sha Tsui, Kowloon, Hong Kong
