

Dry Iron with Ceramic Soleplate

This dry iron is designed for AC 220-240V power supply and consumes 1000-1200W. It is equipped with an adjustable temperature knob and a ceramic coated soleplate.

Overview

Professional Grade Dry Iron

This high-performance dry iron features a premium ceramic coating soleplate designed for smooth gliding across various fabric types. Equipped with a robust 1000-1200W heating element and six temperature settings, it provides precise heat control for delicate silks to heavy linens. Safety and convenience are prioritized with an auto-off thermostat, overheat protection, and a swivel cord for effortless maneuverability.
