

Dual 12-Inch Woofer Multimedia Speaker with FM/USB/SD and Karaoke

This multimedia speaker is designed for stage use and delivers powerful audio. It features FM radio, USB/SD card reader, equalizer, karaoke function, self-amplification, and a guitar input.

Product Overview

High-Performance Multimedia Audio

This versatile multimedia speaker system features dual 12-inch woofers designed to deliver powerful, immersive sound. Equipped with FM radio, USB, and SD card playback capabilities, it offers flexible connectivity for various audio sources. The system also includes karaoke functionality, making it an ideal choice for entertainment settings that require robust audio performance and ease of use.

Audio Configuration

Optimizing Your Sound

For 2.1 channel setups, place the ultra-low sound box on the ground. To strengthen the bass effect, position the inverted phase hole 5-10cm away from the wall. In 4.1 channel configurations, ensure rear speakers are aligned with the user axis and ideally placed at ear level, keeping the distance to the user within 1.5 meters for the best acoustic experience.
