

Dual-Action Air Brush for Fine Art

This air brush is a precision instrument designed for fine art, illustration, and model painting. It features a dual-action trigger for independent control of air and paint flow, offering precise control over line width and spray density.

Product Overview

Precision Dual-Action Airbrush

The RH-BP Air Brush is a high-precision instrument engineered for fine art, detailed illustration, and model painting. Featuring a dual-action trigger mechanism, it provides independent control over both air and paint flow for superior command over spray density and line width. Constructed from durable, high-quality materials, this versatile tool ensures consistent performance across a wide range of paint types and artistic applications.

Technical Specifications

Operating Pressure

15 PSI

Min Pressure

50 PSI

Max Pressure

Nozzle Size 0.3 mm

Paint Cup Capacity 7 cc

Features

Control Mechanism Dual-Action Trigger

Ideal Applications Fine Art, Illustration, Model Painting
