Product Overview

Professional Dual Channel UHF System

This professional-grade UHF wireless microphone system provides high-quality audio transmission with dual-channel operation. Designed for reliability and clear sound reproduction, the system is suitable for live performances, studios, and professional broadcasting environments. It features rack-mountable architecture and a wide operating range, ensuring consistent performance even in challenging audio setups.

Audio Performance

Frequency Response	40Hz-18KHz
Total Harmonic Distortion	0.5 %
Signal-to-Noise Ratio	105 dB

Technical Specifications

Coverage Range

250 m

Effective Range

Modulation Type	FM
Frequency Stability	0.005 %

Operational Details

Power Requirements

- Receiver: DC12-15V 450mA
- Microphones: 2 x 1.5V AA Alkaline batteries

Operating Temperature

-10 to +50°C

Connectivity

Inputs and Outputs

Connection Type	Purpose
MIC A/B	Independent Input
MIX	Mixed Audio Output
ANT A/B	Antenna Connectors
