

Dual Channel UHF Wireless Microphone System with IR Sync

This UHF wireless microphone system features dual channels and IR sync for easy setup. It has PLL circuitry and 100 channels for flexible frequency selection.

Overview

Professional Dual-Channel UHF System

This professional-grade wireless microphone system offers high-fidelity audio transmission using advanced UHF and PLL technology. With 100 selectable channels and rapid IR synchronization, it ensures reliable interference-free performance for public speaking, karaoke, and live events. The robust metal-body handheld microphones provide durability, while the dual-channel receiver allows for precise volume control for both A and B channels.

Technical Specifications

Frequency Range	620-950MHz
Frequency Response	80Hz-18KHz
Operating Range	60 m

System Features

Sync Method	IR Sync • PLL Integrated
Total Channels	100
Build Material	Metal Handheld, UHF Receiver
Battery Requirements	1.5V x 2 per microphone
