

Dual Channel Wireless Microphone System

This wireless microphone system features Sync IR and PLL technology. It operates on 200 channels for clear audio.

Overview

Professional Wireless Audio

This dual-channel wireless microphone system is engineered for reliable, high-fidelity audio transmission in professional environments. Featuring advanced PLL technology and IR synchronization, the system ensures stable connectivity across 200 selectable channels. With an operating range of 60 meters, it is an ideal solution for live performances, conferences, and public speaking events.

Technical Specifications

Frequency Range	620-950MHz
Frequency Response	80Hz-18KHz
Operating Range	60 m
Channels	200

System Design

Build Quality

Metal Handhelds • Dual Channel

Power Requirements

- 1.5V x 2 battery operation
